

Successful implementation of highly-critical IT solutions catering to a particular industry is always a challenge. It requires superior technological expertise and also a strong understanding of that particular industry, its best practices, and delivery methodologies. SolveIT, Inc. has the experience and extensive technological skills required to address the needs of companies across verticals.

With our strong domain knowledge, SolveIT devises innovative solutions that achieve breakthrough results and help our clients maintain their competitive edge. Before we offer a solution, we do due diligence and create an application that's flexible yet robust. One of the key market differentiators that SolveIT possesses is the ability to have a solution that transcends technology barriers, so to speak. Our solutions can easily be integrated into existing systems and companies can leverage our technology to meet competitive challenges. SolveIT helps our clients solve critical business issues, improve existing business processes and provide solutions that fulfill the industry requirements.

SolveIT offers its suite of solutions to the following industries:

- Manufacturing/Retail
- Printing
- Life Sciences
- Government
- Promotional Products/ASI Members

Manufacturing/Retail

SolveIT offers the CustomView™ of applications to help develop a fully functional e-commerce portal that offers interactivity and the ability to customize the products. With CustomView™ eVirtual Module, manufacturing/retail companies achieve increased e-commerce sales and a strong online presence.

Printing

SolveIT provides the printing industry an opportunity to transform their existing legacy systems to a technologically robust application that's in sync with the emerging technologies. SolveIT offers documentation management to the industry that can ensure 100% error-free processing of data.

Life Sciences

With SolveIT's Microsoft Office SharePoint Services (MOSS), life sciences companies have a strong tool that can help it in documenting and managing data during the development of a drug. It can also provide secured access to employees and prevent theft or loss of data and can also help in filing electronically to the FDA.

Government

SolveIT offers superior document management system in the form of Microsoft Office SharePoint Services (MOSS) to both State and Local Governments. With such an effective tool, Government can respond to the issues of the citizens in an efficient and quick manner while building a proactive image in the minds of the public.

Promotional Products/ASI Members

SolveIT has developed a separate module in the CustomView™ of Solutions that specifically caters to Promotional Products manufacturers and ASI members. The eGain Module of CustomView™ will help ASI members and other promotional product manufacturers to capture end-user enquiries and helps them reduce response time to answer customers' queries.

Salient Features:

- Provide a dynamic, e-commerce website that offers customization to products
- Highly personalized applications that suit each vertical's unique business needs
- A potent document management system to help store and retrieve documents
- Capture customer enquiries and convert business leads to booked business results
